The function of purchasing is to serve the educational program by providing the necessary supplies, equipment and services. The Board's authority for the purchase of materials, equipment, supplies and services is extended to the District administration through its adoption of the annual appropriations resolution.

The Board declares its intention to purchase competitively without prejudice and to seek maximum educational value for every dollar expended. The purchase of items and services found on lists from the appropriations resolution requires no further Board approval, except in those instances in which, by law or Board policy, the purchases or services must be put to bid.

The Board authorizes "blanket" purchase orders to be issued for generic supplies for up to twelve months and up to the \$50,000 limit.

A "super blanket" purchase order for a "specific" permitted purpose and in an amount not to exceed the line-item appropriation and fund, whichever is less, is authorized to the extent permitted by law. The permitted purpose list may include payment for accountants, architects, attorneys, construction project managers, consultants, engineers, fuel oil, gasoline, food items, utilities, and any other specific recurring and reasonably predictable operating expense.
